## Power BI Developer

### Profile

Detail-oriented Power BI Developer and Bilingual Data Professional (FR/EN) with 5+ years of experience in business intelligence, ERP development, and statistical analysis. Skilled in Power BI, SQL Server, DAX, VB.NET, and C#, with a proven track record of designing dashboards, optimizing queries, and supporting ERP (Infor/Syteline) customization. Strong communicator with expertise in data storytelling, Agile collaboration, and IT support systems (Jira, FreshWorks).

### Core Skills

- Business Intelligence: Power BI Desktop, DAX, Power Query, SSRS, SSIS
- Programming & ERP: VB.NET, C#, Python, Syteline/Infor ERP (Mongoose)
- Databases: SQL Server, T-SQL, relational database design
- Cloud & Integration: Azure Data Services, REST APIs, JSON, XML
- IT Tools: Jira, FreshWorks, Git, MS Office
- Methodologies: Agile, Scrum
- Languages: English (Advanced), French (Fluent), Arabic (Native)

### Professional Experience

#### Business Analyst & Power Platform Consultant

Nimblox – Toronto, ON | Oct 2024 – Aug 2025

- Designed and maintained Power BI dashboards and KPI reports for finance and operations.
- Developed and optimized SQL queries, stored procedures, and data models to improve reporting.
- Built ERP-related workflows and custom applications with Power Platform and C#.
- Partnered with stakeholders to ensure adoption of BI solutions and improved data-driven decision-making.
- Supported IT change requests and bug fixes through ticketing tools (Jira, FreshWorks).

#### Business Analyst / Developer

SGTM – Casablanca, Morocco | Oct 2022 – Aug 2024

- Designed and deployed Qlik and Power BI dashboards for business performance tracking.
- Developed SQL pipelines and ETL processes for enterprise data.
- Customized ERP modules using VB.NET and C# to enhance reporting and process automation.
- Delivered executive-level presentations and data storytelling for strategic decisions.

## Power Platform Developer

Moda Batum – Casablanca, Morocco | Jul 2020 – Aug 2022

- Automated ERP workflows and built customer analytics dashboards in Power BI.
- Improved reporting efficiency by 30% through SQL query optimization.
- Conducted training sessions for business users on BI tools and ERP functionality.

## Junior Data Analyst

ALF Sahel – Casablanca, Morocco | Oct 2018 – Jun 2020

- Created Power BI dashboards and KPI reports for operations and finance.
- Conducted root cause and trend analysis to support cost optimization.
- Assisted cross-functional teams in ERP reporting adoption and process improvement.
